

Assignment #7 (Due: 17-Mar-2021)

Download and install the **cartopy** and/or **geoviews** libraries into your python environment.

Make sure you have already installed matplotlib.

Read instructions, details from the official, github site of the modules:

<https://pypi.org/project/Cartopy/>

<https://scitools.org.uk/cartopy/docs/latest/>

<https://geoviews.org/>

Write a python snippet code that will plot the Iberian peninsula (the countries of Spain and Portugal), along with Gibraltar, the southern tip of the Iberian Peninsula.

The output should look like this:

Here is some info about these two libraries:

https://scitools.org.uk/cartopy/docs/v0.15/matplotlib/advanced_plotting.html

<https://pypi.org/project/geoviews/>
