# Assignment #9 (Due: 21-Apr-2021)

Create dash/plotly interactive dashboard providing the following functionality.

It should be two (2) drop-down lists:

1- Listing the academic semesters (Fall-2021, Spring-2021)
2- Courses to be taught for each semester (CS632P, CS675)

The web app should be interactive and look like the following

```
Spring-2021

CS632P

CS632P is a course that will be taught in Spring-2021
```

Then, by changing values from either drop-down the output will reflect that,

```
Spring-2021

CS675

CS675 is a course that will be taught in Spring-2021
```

You are flexible to list any number of academic semesters and their respective course selection.
